The aim of this activity is for pupils to create a quiz of Beaumaris Castle. Working as part of a group, pupils should be encouraged to use the Internet to help them create a quiz for their class to complete. This activity will help develop team working, communication and IT Skills. Teachers should ensure that quizzes are a suitable length (no longer than 10 questions) and link to Beaumaris Castle and medieval Wales. Teachers should also give each quiz to a different group to complete towards the end of the lesson, and leave time for the answers to be given.
